SDF want to eradicate this criminal practice with civilised alternatives

- And to achieve this, we want to create modules. Honor the families and individuals every year who are innovative and are doing something substantial to change the mindset of the community too. It is time to honor the community people rather than those 'working' for it.

Muslim artisans work together

Training the Dalit girls by the Muslim artisans

- The condition of Muslim artisans who are called as Zari Zardosi workers here is dismal. The beautiful art is dying and in Fatehpur, we bring them together with the Dalit girls so that they can train these women too and we try to get them justice with fair price and minimum wages.
